

KATHIRAVAN SUBRAMANIAM

INTERACTION DESIGNER

Interaction Design Masters student, having significant experience of 4 years in designing and engineering innovative hardware and software solutions. I am constantly focused on delivering impactful design solutions through thorough research and understanding of the needs. I believe design is the unseen engineering that builds the harmony between the user and the product.

Experience

JAMCULTURE

1 YEAR 4 MONTHS

User Experience designer

Designed mobile app for Jamculture, a platform for musicians to connect with fellow musicians and form bands. Worked closely with the development team on realising the user interface. Managed a team of 8 people. One among the founding members.

ROBERT BOSCH

2 YEAR 8 MONTHS

Software Engineer

Worked as Software Engineer in active safety domains of OEMs like AUDI, Jaguar and BMW. Our team closely worked with hardware components and did both testing and development of new generation technologies.

Education

EXCHANGE SEMESTER

SEP 2018 - FEB 2019

Hochschule für Technik und Wirtschaft, Berlin

Pursuing **Communication Design**

POST GRADUATE

JULY 2017 - Present

National Institute of Design, Bangalore

Pursuing **Interaction Design** - 8.2 SGPA

UNDER GRADUATE

JUNE 2009 - MAY 2013

Kumaraguru College of Technology, Coimbatore

Electronics and Communication Engineering - 8.5 CGPA

Recognition

Co-authored a research paper on 'Effect of aural environments in creative cognition' which got selected for SIDeR 2018 conference, Aalto University Helsinki

Designed an application for empowering the voters called Dhwani which bagged Runner up award at Lollipop design hackathon.

Acknowledged in Robert Bosch Engineering and Business Solutions two consecutive years for designing and developing a tool which reduced the testing time of all the modules by 80 %
